BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

Arctic, Antarctic, and Alpine Research has been published quarterly (through November 2017) by the Institute of Arctic and Alpine Research, University of Colorado, 450 UCB, Boulder, Colorado 80309-0450, U.S.A.; telephone (303) 492-6391. Periodicals postage paid at Boulder, Colorado, and at additional mailing office. Postmaster: send address changes to Institute of Arctic and Alpine Research, University of Colorado, 450 UCB, Boulder, Colorado 80309-0450. USPS 029-840.

All subscriptions end in November 2017. Beginning in 2018, the journal is online only and is fully open access. AAAR no longer offers subscriptions. Prices and availability of back issues vary; contact Jen Hall-Bowman (AAARsubs@colorado.edu) for details. Subject and Author Index for Vols. 1–10 is \$5.00. Claims for nonreceipt of copies in North America should be made within 6 months of date of issue; claims from elsewhere, within 8 months. To email claims contact Jen Hall-Bowman (AAARsubs@colorado.edu).

The journal's web site is <http://aaarjournal.org/> until December 31, 2017, after which users will be redirected to a new site that has not yet been assigned.

Copyright 2017, Regents of the University of Colorado. Material in this journal may be freely used if it is determined to be "fair use" under Section 107 or

satisfies the conditions in Section 108 of the U.S. Copyright Law (17 USC, as revised by P.L. 94-553). For copying beyond that permitted by Section 107 or 108 of the U.S. Copyright Law, authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Regents of the University of Colorado for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the fee of \$7.00 per article is paid directly to CCC, 222 Rosewood Drive, Danvers, Massachusetts 01923, U.S.A. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. U.S. Government works, for which copyright protection is not available, do not bear separate copyright statements.

Microform edition of current volumes and out-of-print issues is available from University Microfilms, 300 N. Zeeb Road, Ann Arbor, Michigan 48106, U.S.A.

1523-0430/06 \$7.00

§ Printed on acid-free paper.

ON THE COVER: Crested auklets (*Aethia cristatella*) are small seabirds that nest in rock crevices on islands in Alaska and Russia. They are among the most abundant seabirds in the North Pacific and nest (often together with least auklets) in a limited number of dense colonies, sometimes numbering more than a million. See "Crevice-nesting auklets are early-successional species requiring disturbance to persist" by Heather M. Renner, Lawrence R. Walker, Christopher F. Waythomas, Jeffrey C. Williams, and Yuri B. Artukhin (pp. 585–599). The photo is by Yuri Artukhin.

ARCTIC, ANTARCTIC, AND ALPINE RESEARCH

INSTRUCTIONS FOR PREPARING AND SUBMITTING NEW MANUSCRIPTS

Editorial Policy

Arctic, Antarctic, and Alpine Research continues *Arctic and Alpine Research* from Vol. 31 (1999). The journal publishes original research papers, resulting correspondence, and short notes dealing with any scientific or cultural aspect of arctic, antarctic, and alpine environments and related topics on the subarctic, subantarctic, and subalpine and on related paleoenvironments and in the context of global change. Papers may be uni- or multidisciplinary but should have interdisciplinary appeal. Direct any questions regarding manuscript preparation to Jen Hall-Bowman at AAARrev@Colorado.edu.

Manuscript Preparation

Use current issues of the journal as a guide to style and layout. Number pages of the manuscript consecutively. The maximum length of a paper, excluding references, should be about 6000 words. Manuscripts should be saved as computer files. Compose text using Microsoft Word; do not use WordPerfect, LaTeX, or TeX. Prepare tables using Microsoft Word or Excel. Save figure files at the highest resolution possible.

Cover Letter

Provide the corresponding author's mailing address, telephone and fax numbers, and e-mail address in the cover letter. The letter should also state that the work has not been previously published and that it represents an original contribution.

Manuscript

Title Page—The corresponding author's name and postal and e-mail addresses, and the names and postal addresses of all co-authors must appear on the first page.

Abstracts—Abstracts accompany all manuscripts and should not exceed 200 words.

Text—Follow format and style of sections and headings in current issues of the journal, using bold and italics to distinguish levels of heads in the style used in the journal. Do not use a word-processing program's "style" functions to designate subheadings; all text should be "normal" style. Avoid footnotes. Cite all tables and figures in the text in numerical order. Use the metric system, preferably Système International d'Unités (SI). Double-line formulas are not acceptable in the body of the text; use a solidus or negative exponent. Number and cite equations consecutively. For general matters of style refer to The Chicago Manual of Style Online (<http://www.chicagomanualofstyle.org/home.html>) (Chicago and London: University of Chicago Press) and Scientific Style and Format (7th ed.) (2006, New York: Rockefeller University Press for Council of Science Editors).

Acknowledgments—This section appears after the main part of the text and before the reference list and is used to credit assistance, grants and other financial awards, and the work of the peer reviewers.

References—Use the format of current issues of the journal. All names of authors and editors must be last names first followed by initials. Italicize the names of journals and books. Spell out the names of all journal and other serial titles. Include the names of editors of collective works. In the text, cite papers having more than two authors as, e.g., Smith et al., but in the reference list show all the authors' names. Check carefully all references for accuracy before submitting the manuscript; mistakes are common. Also, check to make certain that all citations have a reference, and all references have a citation; inconsistencies are common.

Appendices—Appendices include lengthy statistical data or text that is subordinate to the main part of the manuscript. Appendices should be placed in separate computer files.

Tables—Separate tables from text and place them in one or more separate computer files. Design each of them to fit onto one page of the journal, if possible.

Figure Captions—Number all figure captions and place them after the reference list in the computer file with the main part of the text.

Illustrations—Refer to line drawings and photographs as Figures. All figures should have the first author's name and figure number adjacent to the figure; "top" should be indicated. Plan figures with the journal page dimensions in mind: 1 column—8.5 cm (20 picas); 1.5 columns—12.5 cm (30 picas); 2 columns—17.5 cm (41.5 picas); depth 22.75 cm (54 picas), allowing space for the caption. Maps must meet the standards used in current issues of the journal; include a scale bar, latitude and longitude, and a north arrow. No letter or symbol should be less than 1 mm in height after reduction. The largest letters and numbers should usually not be more than three to four times the size of the smallest letters and numbers. Submit figures with the highest possible resolution, in no case less than 600 dpi for line drawings and 300 dpi for photographs. Color is free.

Manuscript Submission

Contact Jen Hall-Bowman at AAARrev@Colorado.edu for information on manuscript submission.

Other Considerations

Manuscript Reviews

All manuscripts are peer reviewed. The review period is usually at least three months. Check on the progress of your manuscript by contacting Jen Hall-Bowman at AAARrev@Colorado.edu.

Proofs

Proof pages are sent to authors via email as PDF files. PDF files of proof pages may not be reproduced or distributed.

Charges

For information on pricing, contact Jen Hall-Bowman at AAARrev@Colorado.edu. Payment of charges entitles authors to a Creative Commons CC-BY open access license for their paper, which gives readers free access to their paper in perpetuity. If journal charges present a hardship, authors may request a waiver. Color is free.

Reprints

The journal no longer provides reprints.
